

The Ryde Hospital redevelopment will be assessed and approved under a two-staged State Significant Development Application (SSDA) process.

The first of two planning applications for the Ryde Hospital Redevelopment is on **public exhibition until 20 September 2022**.

This SSDA application seeks approval for;

- the proposed size and scale of the redevelopment;
- early construction works;
- demolition of buildings;
- site preparation works; and
- relocation and upgrades of in-ground services (e.g electrical and gas connections).

You can view the State Significant Development Application for the project at:

<https://pp.planningportal.nsw.gov.au/major-projects/projects/ryde-hospital-redevelopment-concept-stage-1>

If you would like to lodge a submission, please follow the formal process managed by the Department of Planning and Environment outlined in the link above.

FEEDBACK

Lodging a submission to the Department of Planning and Environment is one way to provide feedback, but you can also contact the Ryde Hospital Redevelopment team directly via the details at the bottom of the page.

A SECOND SSSA APPLICATION

A second and more detailed application, to be submitted in early 2023, will seek approval for;

- the detailed design;
- main construction works; and
- car parking.

Feedback from the community, as well as staff, clinicians and consumers will inform the planning and design work that will inform this application.

LOOK OUT FOR OUR COMMUNITY POP UPS

The project team will be out and about during early September to gain feedback from the community on the next stage of design. The Schematic Design is 'department' focussed and includes plans for how rooms and services will relate to each other within a defined service, such as an intensive care unit. This stage of design also considers the look and feel of the facility including elements such as colour schemes, façade, landscaping, front of house including public areas and entry and exit points to the site.

REQUEST A PRESENTATION

The project team is committed to keeping you updated. We are keen to share project information with your school, community group or other organisation.
